O f the five senses, some contend that eyesight is the most

Orlando Eye & Oculoplastics is the private practice of husband-and-wife team Deepak Raja, M.D., and

board-certified ophthalmologists and members of the American Academy of Ophthalmology, Raja and P

Frequent visits to an ophthalmologist when he was young made an impact on Raja that would essentiall

“I wanted to be on the other side of the chair,” he said.

After earning an undergraduate degree at Duke University in Durham, N.C., Raja received his medical d

Also a Duke University graduate, Parbhu attended Vanderbilt University, where she completed her medi

Parbhu originally wanted to be an internist, but gravitated toward procedures and treatments that would

“I was fascinated by ophthalmology, because there were so many subspecialties,” Parbhu said.

She ultimately chose oculoplastics, which is reconstructive surgery focused on the upper half of the face

In addition to correcting medical conditions related to this area, Parbhu performs cosmetic procedures, s

“I chose this field of medicine because I really wanted to help people feel good about themselves by enh

Together, Raja and Parbhu can treat anything that has to do with the eye, with the exception of retinal su

“We know our limitations and will not hesitate to refer our patients to other subspecialists,” Raja said.

Both doctors have clinical and surgical privileges at all Orlando Health hospitals, including Dr. P. Phillips

Expert services provided at Orlando Eye & Oculoplastics cover a wide variety of conditions and diseases

Patients of Orlando Eye & Oculoplastics also can be successfully treated for agerelated macular degene

An important component of the practice’s philosophy is patient education. Patients are given information

“We see it as a partnership,” Raja said, about his and his wife’s approach to patient care. “If [patients] ur
